The BKT-UPM-T-5X from Larson Electronics is a Telephone Pole Mounting Bracket that allows operators to attach lights to wooden telephone poles and wooden utility poles for wide area lighting coverage. This T-head mounting bracket is built from durable steel tubing and can hold up to five compatible light fixtures.

Installation

The BKT-UPM-T-5X consists of 2 main components; the surface mounting bracket, and the T-head mounting bracket. First, install the surface mounting bracket to the mounting surface via the 4 pre-drilled holes in the flange. Mounting hardware is not included, but is available from Larson Electronics if needed. Next, slip the T-head into the top of the surface bracket, and tighten the T-handle screw to secure it in place. Drill through holes as needed in the T-head bracket for mounting hardware of compatible light fixtures to be installed. Follow mounting instructions for light fixtures when installing, as well as all applicable national and local building and electrical codes.
