RUL-9-MB

Magnetic Base for RUL- 9 & RUL-10 Rechargeable Spotlight with Lithium Ion Battery - 100 Lbs Grip

Product ID: 270

Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

Made in The USA

This magnetic base works with our RUL-9, RUL-9-INTL, RUL-9-220V, RUL-9-FR, RUL-10-T, and RUL-9-A series of high power rechargeable lights and allows operators to quickly and easily attach the light to ferrous metallic surfaces for easy hands free operation. .

This magnetic base is 5 inches in diameter and provides 100 lbs of magnetic grip on metallic surfaces that will accept a magnet. This magnetic base includes a powder coated steel mounting bracket with a spring loaded fastener which allows users to easily attach the base to the Larson Electronics RUL-9 series of rechargeable lights. This magnetic base is ideal for operators who need a light that can be securely positioned to illuminate the task area without any concerns the unit may lose position.
Works with RUL-9, RUL-9-INTL, RUL-9-220V, RUL-9-FR, RUL-10-T, and RUL-9-A

*Explosion Proof Flashlights not Included with Magnetic Base
