IND-MD-UVA.340-6F-12L-HD-M1-10C-120V

UVA Light Fixture - 120V - (12) UVA 340 nm Fluorescent Lamps - 10' Cord

Product ID: 278310

Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

This unit is Made In USA - Manufactured in Texas

The Larson Electronics IND-MD-UVA.340-6F-12L-HD-M1-10C-120V UVA Fixture facilitates no-contact skin treatment for medical applications and can also be used for equipment testing. Equipped with twelve, 40-watt UV lamps positioned upright, the unit offers 340nm UVA output. The heavy-duty system is compatible with 120V AC and comes with a 10-foot cord for power connections.

Please note: This product produces UV light. Make sure to follow all safety guidelines and protocols found in the user manual.

The IND-MD-UVA.340-6F-12L-HD-M1-10C-120V is a powerful device with medical and industrial applications. This system has a total of twelve fluorescent lamps that offer UVA (340 nm) light. Protected by wire guards, the 40-watt lamps are positioned upright in a vertical position. An included timer allow individuals to set specific durations for effective UV applications. The sides of both doors holding lamps are hinged, allowing the unit to be folded for seamless storage and transportation.

Voltage: The IND-MD-UVA.340-6F-12L-HD-M1-10C-120V operates on 120V AC.

Wiring: This UV medical treatment device comes with a 10-foot cord for connection to power sources.

Mount: This unit can be deployed as a free-standing, standalone system in rooms. Two legs provide stability for the vertical fixtures, when the system is in use.

Note on Environment: The UV radiation emitted from this product is not disrupted by any type of lighting in the environment. UV radiation is harmful to the eyes and skin. Please see user manual for additional safety information.

Suggested Applications: Medical, skin therapy, dermatology, healthcare, industrial, equipment testing, labs and more.

At Larson Electronics, we do more than meet your lighting needs. We also provide replacement, retrofit, and upgrade parts as well as industrial grade power accessories. Our craftsmen can custom build any lighting system and/or accessories to fit the unique demands of your operation. A commitment to honesty, quality, and dependability has made Larson Electronics a leader in the lighting and electronics business since 1973. Contact us today at 800-369-6671 or message sales@larsonelectronics.com for more information about our custom options tailored to meet your specific industry needs.
