TPH-7RF-4FM

Trailer Plug Adapter - Female 7-Pin Round to Male 4-Pin Flat Adapter

Product ID: 146655

Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

The TPH-7RF-4FM from Larson Electronics is a trailer plug adapter. This adapter goes from a female 7-pin round plug (with round pins) to a 4-pin flat male plug.
This allows operators to plug in 7-pin round plugs from lights, trailers, or equipment into this adaptor, which will convert it over to a 4-pin flat to plug into the female receptacle on the tow vehicle.
