CRRP-316SS-MOD1

316 Stainless Steel Crossarm Reinforcement Plate – Formed Support Plate – Prevents Crossarm Crushing – Custom Size

Product ID: 330399

Image: CRRP-316SS-MOD1

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

CRRP-316SS-MOD1 Crossarm Brace
Unit Type: Crossarm Reinforcement Plate
Material 316 Stainless Steel, Formed
Function: Prevents Crushing of Crossarm Against Pole Surface
Construction: Heavy-Duty Formed Plate for Load Distribution
Dimensions: As Required (Custom Sizes Available)
Corrosion Resistance: Marine-Grade 316 Stainless Steel for Harsh Environments
Mounting: Installs Between Crossarm and Pole Surface
Compatibility: Works with Fiberglass or Wood Crossarms
Applications: Utility Pole Hardware, Structural Reinforcement, Crossarm Protection

The Larson Electronics CRRP-316SS-MOD1 316 Stainless Steel Crossarm Reinforcement Plate provides operators with a durable and corrosion-resistant load-spreading solution for protecting crossarms in industrial and utility applications. This formed stainless steel plate is engineered to prevent crushing or deformation of fiberglass or wooden crossarms when secured against pole surfaces, ensuring long-term structural integrity in demanding outdoor environments.

The CRRP-316SS-MOD1 is a heavy-duty reinforcement accessory designed to distribute clamping forces applied by pole bolts and hardware assemblies. Manufactured from marine-grade 316 stainless steel, the plate offers exceptional resistance to rust, chemicals, and

moisture exposure. Custom sizing allows the unit to fit a wide range of crossarm dimensions, delivering reliable performance across various pole-mounted systems. Its formed construction enhances strength while allowing straightforward installation between the pole face and the crossarm.

At Larson Electronics, we do more than meet your lighting needs. We also provide replacement, retrofit, and upgrade parts as well as industrial grade power accessories. Our craftsmen can custom build any lighting system and/or accessories to fit the unique demands of your operation. A commitment to honesty, quality, and dependability has made Larson Electronics a leader in the lighting and electronics business since 1973. Contact us today at 800-369-6671 or message sales@larsonelectronics.com for more information about our custom options tailored to meet your specific industry needs.
