XLE-RB-600.200A-15KV

Industrial Reducer Bushing Kit - 600A Deadbreak to 200A Loadbreak - 15kV - EPDM Insulated

Product ID: 335228

Image: XLE-RB-600.200A-15KV

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

The XLE-RB-600.200A-15KV from Larson Electronics is an Industrial Reducer Bushing Kit designed for medium voltage applications and constructed from high-quality EPDM insulation with a conductive shielding layer for deadfront safety.

The XLE-RB-600.200A-15KV converts a 600A deadbreak interface to a 200A loadbreak interface and includes an insulated protective bushing cap for sealing and insulating unused connections.
