Made in Texas

The VMP-AM-FSD-F350-2018 from Larson Electronics is a Permanent Antenna Mounting Plate that allows operators to install up to four antennas on their 2018 Ford Superduty F350 aluminum body pickup trucks without drilling any holes. This antenna mounting plate is ideal for law enforcement, DOT workers and anyone else who needs to easily

mount an antenna, but doesn`t want to drill holes in their truck. This lightweight mounting plate allows operators to mount antennas on their trucks without drilling into the body of the truck itself. This mounting plate can support antenna arrays of up to 20 lbs. The VMP-AM-FSD-F350-2018 features four predrilled 1/2" holes for antenna mounting and is compatible with 2018 Ford Superduty F350 aluminum body pickup trucks.

The VMP-AM-FSD-F350-2018 is constructed in Texas from durable aluminum for the frame, brackets and the mounting plate surface. This mounting plate has been designed for 2018 Ford Superduty F350 aluminum body pickup trucks and offers operators a sturdy and reliable platform to deploy permanent mount CB antennas, radio antennas and antennas from other equipment on the top of their truck for optimal performance. The VMP-AM-FSD-F350-2018 is installed via the rear cab lights and has a weatherproof seal on the back side for secure, dry installation and protection against scrapes to the body of the truck. The mounting plate requires absolutely no drilling for installation and is powder coated for added durability, can support up to 20 lbs and is offered in a black, white, or grey finish. The VMP-AM-FSD-F350-2018 also features a windload okay for highway speeds. (User provided equipment may vary.)
PLEASE NOTE: BEFORE CALLING TO ORDER, YOU WILL NEED TO KNOW YOUR VEHICLE`S YEAR, MAKE, MODEL, AND IF YOUR VEHICLE HAS AN INCANDESCENT OR LED THIRD BRAKE LIGHT. Installation of Lights/Equipment: The VMP-AM-FSD-F350-2018 comes predrilled with four 1/2" holes that allow for the secure mounting of various antennas. Depending on the number of holes required for mounting various types of antennas, this mounting plate can hold up to four antennas. Then the entire assembly can be mounted to the truck via the third brake light as explained below.
Truck Installation: The VMP-AM-FSD-F350-2018 is easy to install and requires absolutely NO drilling to mount to the truck. This mounting plate installs via the 3rd brake light on 2018 Ford Superduty F350 aluminum body pickup trucks between the body of the truck cab and the light. Operators simply remove their 3rd brake light, position the mounting plate bracket and reinstall the light through the bracket.
Having a reverse camera in the third 3rd brake light (NOT in the tailgate or bumper) will change the mounting bracket design. Those with a camera must choose the "camera" option in order to get the correct design. Please choose the appropriate option below.
