MT-UPS-XX-SP0002

UPS Monitoring and Configuration Card

Product ID: 342423

Image: MT-UPS-XX-SP0002

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

UPS Monitoring and Configuration Card

Unit Type: UPS Accessory
Product Type: IntelliSlot Unity LIFE™ Card
Part Number: IS-UNITY-LIFE
Function: Monitoring and Configuration of Select Compatible Vertiv Power Products
Integration: Trellis™, Liebert Nform and LIFE™ Services
Compatible UPS Architecture: Transformer-Free
UPS Efficiency: Up to 96% in Double Conversion Mode
UPS Power Factor Rating: Unity
Load Power Factor Support: 0.5 Lagging to Unity Without Derating
Energy Optimization Mode: Eco-Mode
Interrupting Rating: 65 kAIC
Input Converter: Active Power Factor Corrected IGBT
Inverter: PWM Transistorized IGBT
Static Bypass: Continuous Duty Static Bypass Switch
Input Contacts: Dry Contacts for External Breaker Monitoring, On-Generator Signal and Other Functions
Output Contacts: Dry Contacts for Maintenance Bypass SKRU Permissive Signal, External Breaker Trips and Other Functions
Generator Load Control: Included
Automatic Retransfer: Returns to Inverter Power After Overload
Controls: DSP-Based Controls
Display: Backlit LCD Display
Battery Management: Temperature-Compensated Charging and Battery Load Test
Cable Entry: Bottom Cable Entry to UPS; Top Cable Entry Through Matching Bypass or Optional Wiring Cabinet
Service Access: Front-Only
Emergency Power Off (EPO): Local EPO
Remote Monitoring Service: LIFE™ Services
LIFE™ Service Term: First Year Included

Enclosure Rating: IP20

Mobility: Casters and Leveling Feet

Certification: UL and cUL Listed to UL Standard 1778, 5th Edition

Factory Documentation: Liebert EXM Factory Services Certified Test Report

TAA Compliance: Compliant with FAR 52.225-5

The **MT-UPS-XX-SP0002 from Larson Electronics** is a UPS monitoring and configuration card designed for compatible power and uninterruptible power supply systems.

The **MT-UPS-XX-SP0002** provides monitoring and configuration capabilities for select compatible power products through integration with Trellis™, Liebert Nform, and LIFE™ Services. This communication accessory supports remote monitoring of system status, alarms, events, and operating conditions, helping users manage and maintain critical power equipment. LIFE™ Services for the first year are included as part of the system configuration.
