IND-SDE-SS-R1

Stainless Steel Divider Stand - 6.5' Tall x 24" Wide - Removable Legs

Product ID: 267983

Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

This unit is Made In USA - Manufactured in Texas

The Larson Electronics IND-SDE-SS-R1 Stainless Steel Divider Stand provides reliable separation of spaces in buildings and work sites. This stainless steel divider has removable legs and a partially covered top for access to the segregated area.

The IND-SDE-SS-R1 is a long-term, heavy-duty solution for segregating spaces in open facilities. This stainless steel unit measures 6.5` tall by 24" wide. The top, 3` portion of the divider is covered, with the bottom open for seamless access. The base contains removable legs for compact storage or shipping. The legs can be equipped with mounting lugs for anchoring to concrete. Compared to

polycarbonate alternatives, this metallic divider is long lasting and non-porous which deters accumulation of bacteria, mold, stains and debris. Custom sizes and mounting features, as well as bolt-on solutions are available at an additional cost. We can also include lights with the divider for illuminating the segregated or surrounding area.

Applications: Food processing, sanitation, divider, industrial, warehouse and more.

Larson Electronics is a manufacturer and as such can build stationary and portable transformer systems to your specifications. Although we carry several models of power distribution transformer systems, we can deliver custom ordered units almost as quickly as our prebuilt units. If this model does not meet your needs, please contact us at 1-800-369-6671 or sales@larsonelectronics.com to discuss your specific requirements.
