100' Industrial String Light - 600V Rated, (10) E26 Sockets -12/3 SOOW Yellow Cable, Blunt Cut Ends

Product ID: 280722

Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

Made in the USA

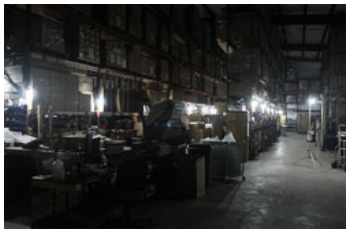
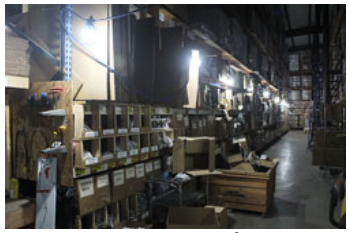
The Larson Electronics WAL-SL-LE-10-10X-12.3Y-GR-BCE-M1 Industrial String Light is designed for high output illumination and daisy chain connections in rugged work areas. This 600V rated unit has 10 molded E26 lamp sockets with ground rings. With 10 feet of center-to-center spacing between each lamp socket, the industrial-grade light stringer provides operators with a temporary work light solution for tunnels and underpasses.

This heavy-duty stringer consists of 10 industrial grade lamp sockets with 10" of 12/3 SOOW yellow cable between each unit. The temporary string light is 600V rated. Each lamp base features a black molded E26 socket with ground ring. The molded sockets can be equipped with woodhead 372v or Ericson 211-p lamp guards. Eyelets are included for hanging this string light set, S-hooks and bulbs are sold separately.

***NOTE: This set-up does NOT include the lamps, bird cage or S hooks for hanging. Each can be purchased separately.**





Wiring: The WAL-SL-LE-10-10X-12.3Y-GR-BCE-M1 is equipped with 100` of 12/3 SOOW yellow cable. Ten feet of center-to-center spacing is provided between the lamp sockets. Five feet of cable is also available from the last sockets to blunt cut ends at the input and output. This system is suitable for daisy chain installations. At Larson Electronics, we do more than meet your lighting needs. We also provide replacement, retrofit, and upgrade parts as well as industrial grade power accessories. Our craftsmen can custom build any lighting system and/or accessories to fit the unique demands of your operation. A commitment to honesty, quality, and dependability has made Larson Electronics a leader in the lighting and electronics business since 1973. Contact us today at 800-369-6671 or message sales@larsonelectronics.com for more information about our custom options tailored to meet your specific industry needs.
