MPD-MT-DOE16-3P-480V-30KVA-120V-N3R

30 kVA Portable 3PH DOE Transformer, 480V Primary, 120V Secondary, N3R, 60 Hz

Product ID: 345723

Please see last page for supporting documentation for this product (certificates, CAD files & drawings, IES files, wiring diagrams, etc).

Image: MPD-MT-DOE16-3P-480V-30KVA-120V-N3R

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

MPD-MT-DOE16-3P-480V-30KVA-120V-N3R DOE Efficiency Isolation Transformer

Transformer Type: Portable Isolation Transformer
Transformer Configuration: Dry Type
Phase: Three Phase
Frequency: 60 Hz
Primary Voltage: 480V AC
Primary Connection: -
Capacity: 30 KVA
Secondary Voltage: 120V AC
Secondary Connection: -
Knockouts: -
FCAN (Above) Taps: 2
FCAN (Below) Taps: 4
Tap %: 2.5
Impedance: 2.5-6.5% typical
Efficiency @ 35% Load: ~98%
Winding Material: Aluminum
Primary Termination (Std): Terminal Lugs
Secondary Termination (Std): Terminal Lugs
Termination Access: Front Access Cover
Mounting: Portable Mount
Cooling: Air/Dry
Insulation: 220°C

Approvals/Ratings

NRTL listed for United States
NRTL listed for Canada
NEMA 3R Indoor/Outdoor Steel Enclosure
Meets or Exceeds NEMA ST-20 Standards
DOE Efficiency Isolation Transformer
Distribution Type Transformer
Seismic Qualified for Earthquake Loads

Larson Electronics LLC
9419 E US HWY 175, Kemp, TX 75143

Email: sales@LarsonElectronics.com
Fax: 903.765.7664

Temperature Rise: 150°C
Sound Level: Meets NEMA ST-20 Standards
Enclosure Material: NEMA Type 3R Heavy Duty - Steel
Finish: ANSI 61 Grey
Dimensions: -
Weight: -
Shipping Method: Pallet Freight - LTL
Shipping Weight: 390 lbs
Shipping Dimensions: 48"L x 40"W x 32.5"H

The MPD-MT-DOE16-3P-480V-30KVA-120V-N3R Three Phase 480V 30 KVA Portable DOE Efficiency Transformer from Larson Electronics is powerful, reliable and designed with the environment in mind. Suitable for both indoor and outdoor applications, the MPD-MT-DOE16-3P-480V-30KVA-120V-N3R provides increased reliability and protection against critical equipment failures. This 30 KVA isolation is designed for distribution loads and potential seismic activity. The lower operating costs, lower heat emissions and lower cost of ownership make this transformer ideal for a wide range of applications and businesses.

PLEASE NOTE: ANY FREE SHIPPING OFFERS DO NOT APPLY TO POWER DISTRIBUTION PANELS, TRANSFORMERS, OR SUBSTATIONS

Transformer Features: The MPD-MT-DOE16-3P-480V-30KVA-120V-N3R DOE Efficiency transformer is a three phase transformer with a 30 KVA capacity rating. This isolation transformer is configured with an input voltage of 480V 3-Phase AC on the primary side and an output voltage of 120V 3-Phase AC on the secondary side. Featuring robust construction, this unit's cores are manufactured with non-aging, cold-rolled silicon steel laminations using state of the art technology.

This unit boasts a low cost of ownership and is highly energy efficient. Lower heat emissions mean less cooling is needed as well. The standard NEMA Type 3R enclosure makes the unit suitable for both indoor and outdoor applications. The unit is portable for temporary use. This 30 KVA distribution transformer features 220°C insulation with a 150°C temperature rise.

Benefits: The MPD-MT-DOE16-3P-480V-30KVA-120V-N3R 480V general purpose transformer offers many benefits to the consumer. Precision cut aluminum transformer winding material help to improve performance. The close tolerances used during manufacturing also eliminates burrs which hinder performance. Each core is specially coated to prevent the ingress of moisture and are electrically balanced to minimize axial forces during short circuit situations.

This transformer provides owners with significant energy savings as well as offering environmental benefits. Higher efficiency not only extends the life of the transformer, but also turn into cost savings for owners in the form of lower energy bills and decreased cost of ownership.

The MT-DOE series of transformers from Larson Electronics meet or exceed efficiency standards for United States and Canada. This results is overall lower cost of ownership throughout the life of the transformer.

Safety: The MPD-MT-DOE16-3P-480V-30KVA-120V-N3R is an isolation transformer which means that it provides operators with an increased level of protection against electric shock and injury. An isolation transformer can also suppress electrical noise in sensitive devices and transfer power between two circuits which must not be connected. The MPD-MT-DOE16-3P-480V-30KVA-120V-N3R achieves these safety features by separating or "isolating" the powered device from the power source and insulation between the primary and secondary power sources.

Applications: Converting 480V local grid power for on-site equipment. This 30 KVA power transformer is ideal for sensitive equipment such as CNC equipment, computers, medical devices, ovens, or laboratory instruments.

Larson Electronics is a manufacturer and as such can build stationary and portable transformer systems to your specifications. Although we carry several models of power distribution transformer systems, we can deliver custom ordered units almost as quickly as our prebuilt units. If this model does not meet your needs, please contact us at 1-800-369-6671 or sales@larsonelectronics.com to discuss your specific requirements.
