GAO-250W-15A-L6-15

General Area Purpose 15 Amp 2-Pole 3-Wire Twist Lock Outlet - 250 Volt AC - NEMA L6-15 Rated

Product ID: 64184

Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

Larson Electronics GAO-250W-15A-L6-15 Twist Lock Outlet
The GAP-250W-15A-L6-15 twist lock outlet is rated at 15 amps and is compatible with our GAP-250W-15A-L6-15 15 amp twist lock plug. This outlet can only be used in twist lock style plug. This outlet is designed to lock into compatible receptacles by twisting the plug body until an audible click is heard, which indicates the plug is securely connected. Once locked into place the plug will not accidentally pull out of this outlet. This outlet is ideal for applications where moisture and corrosion is a problem and well suited for use in marine and manufacturing environments.
Suggested Applications: Manufacturing, Industrial, Warehouse, Lighting, Motor-Generator Sets, Compressors.
