INSTALLATION

We strongly recommend only a licensed electrician maintain the light fixture. Fixture and yoke mount must be mounted to a pole that can structurally support the load.

The yoke mount will be supplied in the desired diameter selected upon purchase.

Mount following the steps below:

1. Remove light from existing mount if installed.
2. Loosen nut for slip fitter and place through center trunnion mount hole of light fixture.
3. Replace nut and tighten.
4. Loosen lock screw on slip fitter mount.
5. Lower fixture over pole making sure not to pinch wires between slip fitter & pole.
6. Tighten lock screw located on side of slip fitter mount, securing slip fitter to pole.
7. Adjust lamp as required.
8. Swing lamp into final position and tighten any loose bolts/hand screws.
9. Wire the whip/power cord to existing power source.
10. Turn power on.

USE AND CARE

Always check damaged or worn out parts before using the work light. Broken parts will affect operation. When not in use, store work light in a secure place out of the reach of children. Inspect it for good working condition prior to storage and before re-use.
