SAVE THESE INSTRUCTIONS
PLEASE READ THESE INSTRUCTIONS BEFORE USING YOUR WORK LIGHT

WARNINGS

- Lithium-ion batteries must be used and charged properly. Improper use can result in serious injury, fire, or death.
- NOT FOR USE IN HAZARDOUS LOCATIONS. Do not use this product in explosive atmospheres, near flammable liquids, or where explosion proof or intrinsically safe lighting is required.
- DO NOT use this product in the proximity of vehicles or equipment when there is a risk of flammable liquids coming into contact with the flashlight.
- Light can become hot while on. To prevent damage DO NOT cover or place next to any potentially flammable materials while in use.
- Do not leave the battery in direct sunlight, or use or store the battery inside cars in hot weather.
- Do not expose the battery to water or salt water, or allow the battery to get wet.
- Do not store the battery with metallic objects that may cause a short circuit.
- Immediately discontinue use of the battery if the battery emits an unusual smell, feels hot, changes color, changes shape or appears abnormal in any way.
- Keep out of reach of children.

INITIAL USE

- Fully charge the unit before the first use, or if the battery is new or has been unused for several months. The maximum charge time required is approximately 6 hours.

DAILY USE

- Use only the supplied AC or DC adapter. For best performance, charge the light when it starts to dim.
- Connect the AC or DC adapter cord into the bottom of the light.
- The total time to fully charge the light varies depending on the remaining charge in the battery pack.
- In order for the light to be waterproof, the rubber plug must be reinserted into the charging port.

OPERATION

CAUTION: Because the RL-16-LED-M has a magnetic base, it is likely that it will be placed in an elevated position above the ground. Therefore, caution should be used to be certain that the magnet is securely attached to the metal surface before releasing the light. It is also advised that extra care be taken when adjusting or moving the cord so that the work light does not come loose and fall to the ground.

The RL-16-LED-M has a single sealed push button switch located on the back of the light head.
Turning the light on high mode:

- Press and release the button one time.

Turning the light on low mode:

- Press and release the button a second time.

Turning the light off:

- Press and release the button a third time.
