INSTALLATION INSTRUCTIONS FOR REPLACEMENT GASKET FOR NO-DRILL MOUNTING PLATES (FORD F150 AND SUPERDUTY TRUCKS)

Thank you for your purchase. This replacement gasket is for the VMP-FSD-2017, VMP-MAM-F150-2015 and VMP-AM-F150-2015 only. Follow the basic installation steps below to install or remove the gasket.

1. Before installing, remove the old gasket from the mounting plate along with the old adhesive residue.
2. Once the area is cleaned, peel off the back of the replacement gasket and fit it onto the mounting plate using the pre-cut holes as guides.
3. Allow some time for the adhesive to set properly before reinstalling the mounting plate onto your vehicle.
