

Perko Bow Mount for Golight Strykers w/ Perko Door Socket Instruction Manual

Perko bow mount for boat lights that has a 2 pin gold coated connector in the base. The base slides and locks into a sliding door Perko socket via a twist collar. The Perko socket can be attached to any surface including fiberglass and will securely hold the light in place.

MOUNTING INFORMATION

Read all instructions before proceeding.

1. Mount Golight to the top of the post mount following instructions supplied with your device. Red and Green running lights on perko bow mount are generally supplied complete with a 12V bulb.
2. The running light is designed to be mounted on a horizontal surface. (IMPORTANT: top of light must be vertical during operation.)
3. Setup for Operation:
Insert pole in base, making sure alignment screw in pole slides into notch in base. Push pole down until it engages the electrical connector and then lock by rotating the locking collar clockwise.
As pole engages with base, make sure alignment screw in pole slides into the notch in base. Push the pole until it engages the electrical connector. Turn the threaded collar clockwise until it threads into place and is snug onto the base.

USE AND CARE

Unauthorized modification may impair the function and/or safety of this device and could affect the life of the equipment. Always check for damaged or worn out parts before using the device. Store it in a secure place out of the reach of children when not in use. Inspect for good working condition prior to storage and before re-use.

REPLACEMENT PARTS

The SMS-P is designed to provide years of reliable performance. Should the need for replacement parts arise, please contact Larson Electronics.
