Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

This electric explosion proof circular fan is suitable for confined spaces and is approved for use within Class I Divisions 1 & 2 and Class II Divisions 1 & 2 hazardous locations. This fan features a high efficiency 1/4 HP motor which is fully encapsulated and a precision balanced, non sparking aluminum blade assembly for high output and protection against accidental ignitions. This fan has 30" propeller diameter and produces over 8,723 CFM of air output for excellent circulation of air in large areas. The EPF-30-PM-SW-M2 has an ambient temperature rating of 10° to 40°C.

This fan is rated for single phase 115/230V 60Hz and operates at 1,140 RPM. A built-in explosion proof switch offers convenient on/off control of the EPF-30-PM-SW-M2. A cast aluminum junction box houses the fan motor and allows for electrical connections to the fan. Mounting options include ceiling mount for suspended pendant mounting and a wall mounting kit for mounting to flat surfaces. A 12` stainless steel safety cable is included with ceiling mount kits.
