

13.5" Base Stand for Larson Electronics Light Masts Instruction Guide

The Larson Electronics LM-30-3S-SP0431 is a 15" base stand that allows users to increase the height of existing light masts to clear 60 inches.

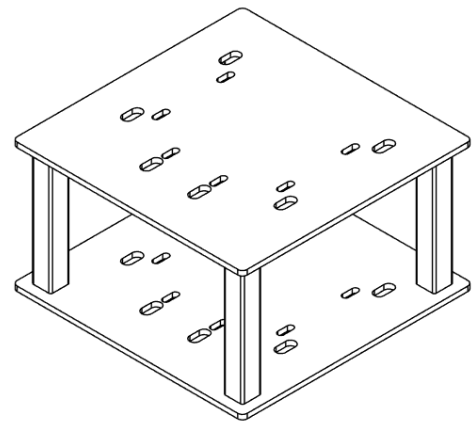

The LM-30-3S-SP0431 is bolted onto the base of existing masts, between the mounting surface and mast to increase the mast height.

WARNING

Only install to surfaces that can structurally support the load.

INSTALLATION

1. Place base stand on flat surface where the mast should be mounted.
2. Check orientation of base stand with mast. Align mounting holes of base stand to mounting holes of mast to ensure mast will be mounted in the proper direction.
3. Once the desired orientation has been verified, mark holes for mounting through bottom of base stand.
4. Bolt base stand to surface using $\frac{1}{2}$ X 2 inch Grade 8 bolts, washers, and nuts.
5. Align mast to mounting holes of base stand.
6. Bolt mast to base stand $\frac{1}{2}$ X 2 inch Grade 8 bolts, washers, and nuts.
7. Ensure all screws/bolts are tight
8. Mast is now installed to base stand and is elevated an additional 60 inches.
