

EPL-MB-150LED-SP0000-M-KT

Replacement Frame, Mount and T-Handle Assembly

EPL-MB-150LED Series

The included frame, mount, and T-Handle assembly replaces existing frames for EPL-MB-150LED series light fixtures. Follow the steps below for installing.

MOUNTING

- Insert light and align holes on sides to holes in frame. Fits EPL-HB-150LET-RT lamps only.
- Insert T-Handle (Hand Screw) on both sides and turn clockwise to tighten and secure light.
- Lamp is now installed and frame is ready for mounting.
- Affix the magnetic mount to a metal surface that can structurally support the load. Six 200lb. grip magnets allow the unit to be mounted to walls, ceilings, and other flat metallic surfaces. Ensure *ALL* six magnets adhere to the magnetic surface!
- Hang the lamp assembly from the magnetic bracket and position as needed.

LIGHT ADJUSTMENT:

There are two hand screws, each located on sides of light. Loosen both hand screws to tilt the light vertically 90°. Tighten hand screws once desired angle is achieved.

MAINTENANCE

Caution: To avoid personal injury, disconnect power to the light and allow the unit to cool down before performing maintenance.

1. Perform visual, mechanical and electrical inspections on a regular basis. We recommend routine checks to be made on a yearly basis. Frequency of use and environment should determine this. It is recommended to follow an Electrical Preventive Maintenance Program as described in NFPA 70B: Recommended practice for Electrical Equipment.
2. The lens of light should be cleaned periodically as needed to ensure continued photometric performance. Clean the lens with a damp, non-abrasive, lint-free cloth. If not sufficient, use mild soap or a liquid cleaner.
3. Inspect the cooling fins on the luminaire to ensure that they are free of any obstructions or contamination (i.e. excessive dust build-up). Clean with a non-abrasive cloth if needed.
4. Do not operate if the lens is cracked or damaged. All fasteners should be properly seated.
5. Ensure magnets are securely attached and show no signs of wear.
