Stanchion Post Mount with Perko Sliding Door Socket - 6 Inches

6 inch stanchion mount post that has 2 pin connectors in the base. The base slides and locks into a sliding door Perko socket. The Perko socket can be attached to any surface including fiberglass and will securely hold the light in place. This assembly can be used to mount to an existing Golight Radioray (GL-2000 series) spotlight or just about any light. There are several mounting holes, including 3/8 - inch mount for most HID stud mount lights, like the 24 volt equipment lights, HID boat lights or just about any brand of off road halogen or HID light.

MOUNTING INFORMATION

Read all instructions before proceeding.

1. Mount Golight to the top of the post mount following instructions supplied with your device. Red and Green running lights on stanchion post mount are generally supplied complete with a 12V bulb.

2. The running light is designed to be mounted on a horizontal surface. (IMPORTANT: top of light must be vertical during operation.)

3. Setup for Operation:
   Insert pole in base, making sure alignment screw in pole slides into notch in base. Push pole down until it engages the electrical connector and then lock by rotating the locking collar clockwise.

   As pole engages with base, make sure alignment screw in pole slides into the notch in base. Push the pole until it engages the electrical connector. Turn the threaded collar clockwise until it threads into place and is snug onto the base.
