Aluminum L Bracket - L-Bracket to Mount Golights - 7" x 4" x 3" Install Guide

WARNING

Verify that light is directed away from people and drivers before activating lamp.

This bracket kit is for installing Golight, RadioRay and Stryker permanent mount lights.

INSTALLATION

Identify the style of light you are mounting and follow appropriate instructions below.

Attach plate to surface that can support the load. There are pre-drilled mounting holes used for securing to surfaces. Utilize washers when necessary. Plan a way for wiring to run once mounted.

Golight and RadioRay Lights

1. Set plate in area to be mounted.
2. Secure to surface using the pre-drilled thru-holes.
3. Tighten screws.
4. Mount light to bracket with four 7/8 inch long machine screws. Route the wires through the center hole in the bracket before tightening the nuts. Tighten nylon insert nuts using 9mm wrench.
5. Follow wiring guidelines as included with the light package.

Stryker Lights

1. Remove set screw from back of mounting plate under the light.
2. Install mounting plate on bracket using the three 5/8 inch long machine screws. Tighten nylon insert nuts using 9mm wrench. Route the wires through the center hole in the bracket before tightening the nuts.
3. Mount light to bracket. TIP – it helps to wet the gasket under the light to facilitate sliding on the bracket surface. Insert set screw into back of bracket and tighten.
4. Set plate in area to be mounted.
5. Secure to surface using the pre-drilled thru-holes.
6. Tighten screws.
7. Follow wiring guidelines as included with the light package.
