High Intensity LED Light
10 Watt LED - 12-32V DC - 650 Foot Spot Beam
Instruction Manual

Familiarize yourself with all procedures outlined within this instruction sheet.

WARNING:

READ CAREFULLY BEFORE OPERATING FIXTURE. RETAIN THESE INSTRUCTIONS FOR FUTURE REFERENCE.
CRITICAL SAFETY INSTRUCTIONS:

- Never place spotlight face down when light is on. Doing so could burn/ignite surfaces such as seats, carpeting, etc. and cause major property damage. Always turn spotlight off when not in use.
- To prevent serious damage to eyesight, never look into spotlight when light is on.
- **DO NOT** shine light into the face of someone else.
- **DO NOT** touch lens of spotlight when light is on or if it was recently on. The lens will be hot.
- **DO NOT** allow children to handle or operate this spotlight.
- **DO NOT** use this product for other than its intended use.
- **DO NOT** operate in close proximity of combustible or flammable materials.
- **DO NOT** attempt to operate this spotlight if cord, plug, battery, bulb or any part of the spotlight is damaged or corroded.

The LEDP1X10WRE-25C is shipped with selected Beam configuration and housing finish. Images shown may vary depending upon options selected.

POWER

1. The spotlight is designed to work on 12-32 volts DC. This variable voltage allows the light to be connected to consumer vehicles and other non-standard power supplies such as military vehicles and heavy equipment.

   PLEASE NOTE: *There is no difference in light output between voltages.*
2. Power transformers (DCP-11-DP) can be purchased through our website to run this spotlight from household wall outlets.

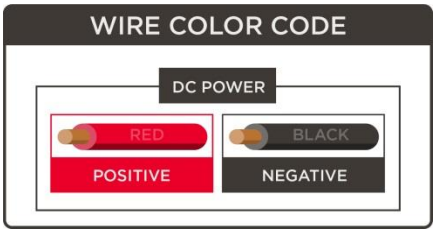

*LAMP STYLE MAY VARY

MOUNTING

The LEDP1X10WRE-25C is suspended within a form fitting trunnion (yolk-type) mount. This trunnion mount has two screws that can be loosened, allowing the LED light to be adjusted vertically, then re-tightened to lock the light into the desired position. A single stainless steel stud protrudes from the bottom of the mount, enabling the operator to install the light using a simple through-hole mount, allowing the unit to be installed anywhere a 1/2-inch hole can be drilled.

DETACHABLE CORDS

- Power is attached via a weatherproof 2-pin Deutsch connector.
- The cords are detachable by depressing the tab on the top of the connectors. This enables the operator to leave the cord connected to the power source and remove to store the light.
- Additional or replacement cords can be ordered from our website.

*We offer 16 foot coil cords with a cigarette plug (C-16-CC-CP), 21 foot cords with ring terminals (C-21- RT), 16 foot cords with battery clamps (C-16-BC), and 16 foot straight cords with cigarette plugs (C-16 CP).
