INSTALLATION

*We strongly recommend only a licensed electrician install this product.
Make sure power is disconnected prior to installing.*

Mount following the steps below:

1. Turn off power at electrical panel.
2. Dismount light from its current trunnion mount. Keep track of hex bolts and washers for use later.
3. Loosen and remove the old trunnion mount from surface.
4. Attach replacement trunnion mount to surface.
5. Attach lamp to new trunnion mount using removed hardware
6. Wire the whip/power cord to existing power source. Follow proper steps to weatherproof electrical connections as necessary.
7. Turn power on to resume operation.

USE AND CARE

Always check damaged or worn out parts before using the work light. Broken parts will affect operation. When not in use, store work light in a secure place out of the reach of children. Inspect it for good working condition prior to storage and before re-use.
