Industrial Battery-powered Headlamp
Spot/Flood - White/Red/Green - (3) AAA - IP-X7
Instruction Manual

Warning:

- NOT FOR USE IN HAZARDOUS LOCATIONS
- DO NOT use in explosive atmospheres, near flammable liquids, or where explosion proof lamps are required.
- DO NOT use in the proximity of vehicles or equipment when there is a risk of flammable liquids coming into contact with the flashlight.
- DO NOT expose the batteries to water or salt water, or allow the batteries to get wet.
- DO NOT store the batteries with metallic objects that may cause a short circuit.
- Immediately discontinue use of the batteries if they emit an unusual smell, feel hot, change color, change shape or appear abnormal in any way.
- Keep out of the reach of children.

The Larson Electronics WAL-LED-HL-MX2-3C Industrial Battery-powered Headlamp is ideal for a wide variety of uses including industrial safety, public works & utilities, law enforcement, hardware/tool, automotive, marine, sporting goods and consumer applications. This impact/chemical resistant unit provides white, green and red output. Protected by a polycarbonate lens with a scratch resistant coating, the IP-X7 rated device is equipped with a non-slip elastic strap.

Installing Batteries

- Unscrew battery compartment door on the back of the headlamp.
- Insert batteries per the outline inside the battery compartment.
- Close the battery door and fasten the screw to secure.
- Headlamp is now ready for use.
