USING THE HAND LAMP

This hand lamp comes preconfigured with user selected cord cap. Follow the steps below to operate the unit.

1. Position light head in desired location using stainless steel swivel hook.
2. Run cable and attach power cord to compatible outlet with output **voltage listed on product label.**

WARNING: *This hand lamp operates on selected voltage. Check product label for correct voltage! Damage from improper voltage may not be covered by warranty.*

OPERATION

The LED lamp in the hand lamp is “instant-on” and will illuminate once power is supplied.

LAMP REPLACEMENT

1. Loosen (4) set screws holding Globe Guard.
2. Remove Globe Guard assembly from handle.
3. Unscrew Globe from handle.
4. Replace with compatible 10 watt LED lamp.
5. Screw Globe completely onto lamp base.
6. Replace Globe Guard.
7. Tighten (4) set screws securely.

Note: Over tightening can deform threads.

USE AND CARE

Unauthorized modification may impair the function and/or safety of the work light and could affect the life of the equipment. Always check damaged or worn out parts before using the work light. When work light is not in use, store it in a secure place out of the reach of children. Inspect for good working condition prior to storage and before re-use.
