Handheld LED Light with Magnetic Base
12-24 Volts DC
Instruction Manual

Thank you for your purchase of the MUL-LED10W light with magnetic base. Please follow the steps below in order to operate and maintain this product.

WARNING:

READ CAREFULLY BEFORE OPERATING FIXTURE. RETAIN THESE INSTRUCTIONS FOR FUTURE REFERENCE.
CRITICAL SAFETY INSTRUCTIONS:

- Never place spotlight face down when light is on. Doing so could burn/ignite surfaces such as seats, carpeting, etc. and cause major property damage. Always turn spotlight off when not in use.
- To prevent serious damage to eyesight, never look into spotlight when light is on.
- DO NOT shine light into the face of someone else.
- DO NOT touch lens of spotlight when light is on or if it was recently on. The lens will be hot.
- DO NOT allow children to handle or operate this spotlight.
- DO NOT use this product for other than its intended use.
- DO NOT operate in close proximity of combustible or flammable materials.
- DO NOT attempt to operate this light if cord, plug, lens or any part of the spotlight is damaged or corroded.
- Although fixture is IP67 rated waterproof, it is not designed or intended to be submerged.
- If dropped or damaged, the unit may no longer be waterproof and should be replaced.
- People with pacemakers should consult their physician(s) before use. Electromagnetic fields in close proximity to heart pacemaker could cause pacemaker interference or pacemaker failure.
- Keep fingers away from magnet when mounting as injury could occur.

The light features a magnetic base that allows it to attach to any metal surface – the mount has gripping power up to 100lbs. When removing, do not drag the magnetic base to disconnect, as it may scratch the surface/paint.

OPERATION

- The LED light is designed to work on 9-48 volts DC. This variable voltage allows the light to be connected to consumer vehicles and other non-standard power supplies such as military vehicles and heavy equipment.

PLEASE NOTE: There is no difference in light output between voltages.

- Power transformers (DCP-xx-DP series) can be purchased through our website to run this spotlight from household wall outlets.
- Use the handle on base of light for handheld movement and/or placing on metal surface.
- Adjust tightness of tilt movement using the tightening bolts on sides of base hinge.
- Connect SAE/Deutsch connector from power cord to light.
- Plug power plug into power source.

WIRING

- Power is attached via 16ft coil cord with cigarette plug. Simply connect to your power source outputting power within compatible voltage range. Ensure wiring is watertight when installing in wet/outdoor areas. Connect deutsch connector into back of light. Light is “instant-on” and will illuminate once power is supplied.

NOTE: ***Check for proper voltage before use!*** *Power options range from 9-48v DC.*
