

Concealable Backup Universal Handcuff Key

Instruction Manual

Thank you for your purchase of the Concealable Backup Universal Handcuff Key.

The Universal Handcuff Key is made with durable plastic, enabling it to be freed and used easily as well long term use as a handcuff key.

While slightly larger than a nickel the unique design of this universal handcuff key enables the user to secure the cuff key behind buttons on any type of clothing and buttoning the clothing normally over top the key. The extremely lightweight form factor does not show through the clothing, nor does it create any telling ripples or wrinkles in the clothing. Even the latest technology in metal detectors does not reveal the presence of this universal plastic handcuff key.

To access they key remove it from its retaining ring, twist the key out from the retaining ring, once freed use the key to unlock the cuffs.
