The Larson Electronics GAU-HB-48-6L-LED-187 polycarbonate overspray cover is designed to be mounted to a GAU-HB-48-6L Series light fixture from Larson Electronics. This cover will protect the fixture and its components from overspray in paint booths and similar areas with airborne particles that may adhere to the fixture.

Installation

The cover is easily installed over the face of the GAU-HB-48-6L Series light fixture using the provided hardware. Simply line the cover up over the fixture and install the provided clips around the edge of the cover where it meets the fixture body to hold it in place. To remove the cover, simply reverse this process. Be sure to remove the protective sticky layer from the cover before installing so that it is transparent.
