General Area Purpose 20 Amp 2-Pole 3-Wire Twist Lock Plug - 250 Volt AC - NEMA L5-20

Part #: GAP-250W-20A-L5-20

Larson Electronics GAP-250W-20A-L5-20 Twist Lock Plug

The GAP-250W-20A-L5-20 twist lock plug is rated at 20 amps and is compatible with our GAO-250W-20A-L5-20 20 amp twist lock outlet. This plug can only be used in twist lock style outlets. This plug is designed to lock into compatible receptacles by twisting the plug body until an audible click is heard, which indicates the plug is securely connected. Once locked into place this plug will not accidentally pull out. This plug is ideal for applications where moisture and corrosion is a problem and well suited for use in marine and manufacturing environments.

Suggested Applications: Manufacturing, Industrial, Warehouse, Lighting, Motor-Generator Sets, Compressors.
