

WAL-TL-5X12W-C-1227

60 Watt LED Strobing Signal Stack Light - White, Blue, Amber, Green, Red - NEMA 4X - 120-277V AC

Product ID: 105293

Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

WAL-TL-5X12W-C-1227-1227

Lamp Type: LED

Colors: White, Blue, Amber, Green, Red

Dimensions: 36"-H x 10.25"-W x 4.25"-D

Watts: 12 Watts Per Lamp - 60W Total

Voltage: 120-277 Volts AC

Lighting Configuration: Steady Burn or Strobe

Mounting: Ceiling, Wall, Flat Surface

Wiring: 16 AWG leads

Lamp Life: 50,000+ Hours

Mounting: Predrilled Aluminum Base

Features

Red, Amber, and Green Lights

Low Profile

Durable Aluminum Construction

Low Amp Draw

IP68 (Waterproof)

NEMA 4X

Multi-voltage 120-277V Operation

Made in the Texas

The WAL-TL-5X12W-C-1227 LED Strobing Signal Stack Light from Larson Electronics is also approved for use in wet locations and marine environments. This waterproof LED equipped light is designed for routing traffic in industrial refueling stations and process status indication in manufacturing facilities.

The WAL-TL-5X12W-C-1227 strobing LED traffic light is an ideal indicator lighting solution for industrial, marine, and manufacturing facilities. The light housings are fully sealed within a waterproof aluminum chassis fixture that features a very small profile for easy and unobtrusive mounting in tight and space limited areas. The mounting plate is also made from aluminum and can be custom built to customer specifications. This multi-colored indicator light provides white, blue, amber, green, and red light outputs, has a 50,000 hour operational life, and is available in 120-277 VAC.

[Click Photo to Enlarge](#)

This LED light is fully sealed, weatherproof, and constructed of aluminum with stainless steel hardware for durability and corrosion resistance. The LEDs are housed within a hard anodized and powder coated aluminum chassis that provides excellent strength and durability. Power is provided by individual conductors to allow independent operation of each lamp, making this unit ideal for fuel depots and manufacturing facilities where status indicators are necessary. This light can be operated on voltages ranging from 120 to 277 volts AC without the need for any extra hardware. The light will sense the voltage and adjust the current sent to the LED accordingly.

This signal light fixture is configured for red, blue, white, and green output (one lamp each color). The WAL-TL series of lights offers exceptional lumen output, a 50,000+ hour life span, IP68 waterproof tested to 60 meters. The LED lamps in this traffic light are 12 watts each and offer cool operation and clean, bright output that surpasses that of 100 watt incandescent indicator lamps. Mounting is provided by a heavy gauge aluminum base with four predrilled holes designed to be bolted to walls and flat surfaces for permanent and secure attachment.

Note on Lights: Please note, the color choices and light configuration of this unit can be customized to your requirements. We offer steady burn or strobing LED lamps, as well as high or low voltage configurations. Please contact us for special color configurations.

Frequently Asked Questions (FAQ)

WAL-TL-5X12W-C-1227

Product ID: 105293

Export Control Classification Number (ECCN): EAR99

Options:

WAL-TL-5X12W-C-1227-Beam Config-Beam Angle

Example: WAL-TL-5X12W-C-1227-STB-flood

Beam Config	
STEADY BURN	-STB
STROBE	-STROBE

Beam Angle	
FLOOD	-flood
SPOT	-spot
