Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

LE-6XXX-RCM Rechargeable Golight Spotlight Battery Pack

Type: Golight Spotlight Battery Pack
Battery Type: Lithium Ion / 12 Cells, 2,200ma Per Cell
Case Dimensions: 6" W x 6" D x 6" H
Weight: 4 lbs
Capacity: 8.8 Amp Hours
Battery Voltage: 12V DC
Switch: Booted On/Off
Battery Recharge Time: 2 hours
Charging Unit: 110V AC - 240V AC 50/60hz Wall Charger
Wiring: Flying Leads w/ Butt Splices
Case Material: CNC Machined Aluminum
Housing Color: Black or White
Mounting: 5 inch Diameter, 200 lbs Grip Magnetic Base

Ratings/Features:

Compatible with 3000 Series Golight Stryker Spotlights
Lithium Ion Rechargeable Battery
IP67 Waterproof to One Meter
Two Hour Recharge Time
Convenient Magnetic Mount
CNC Machined Aluminum Base
Made in the USA

Made in Texas

The LE-6XXX-RCM from Larson Electronics is a rechargeable battery pack that is compatible with Golight Stryker 3000 series spotlights. This rechargeable lithium ion battery pack provides 12V DC voltage and 8.8 amp hours of capacity. The LE-6XXX-RCM also features a CNC machined aluminum base with mounting magnet and a fast 2

hour charge time while weighing only four pounds.

Please note that no spotlight is included with this charger

The LE-6XXX-RCM is an ideal accessory for the 3000 series of Golight Stryker spotlights by offering operators a lightweight yet powerful 12V DC rechargeable power source. This portable lithium ion battery pack provides the long life and easy charging of lithium batteries combined with an 8.8 amp hour capacity rating. Operators can determine battery run time by dividing watts of the desired light source by 12 and then dividing the result into 8.8. This will give them the run time for that light on this battery pack.

The LE-6XXX-RCM rechargeable lithium ion battery pack provides 12 volts DC with an 8.8 amp hour capacity and can be recharged from a fully discharged state in only two hours. An included wall charging unit allows users to recharge this unit from any common 110V AC – 240V AC 50/60hz wall outlet and an optional vehicle charger is available. This rechargeable battery pack will power Golight halogen for 90 minutes+, Golight HID for 3 hours+ or Golight LED for 3 hours+ and is an ideal companion accessory for Golights where it is not convenient to access vehicle or equipment power.

An IP67 waterproof rated housing provides protection against water and dampness and a booted on/off switch provides simple power control. Included with this battery pack is a CNC machined aluminum base with a 200 lbs grip 5 inch diameter magnetic mount base, which provides secure mounting of the pack to ferrous metallic surfaces. This magnetic base will hold the unit securely to metal surfaces, allowing users to operate their equipment without the inconvenience of managing a loose battery supply. The LE-6XXX-RCM is offered in either a white or black finish.

At Larson Electronics, we do more than meet your lighting needs. We also provide replacement, retrofit, and upgrade parts as well as industrial grade power accessories. Our craftsmen can custom build any lighting system and/or accessories to fit the unique demands of your operation. A commitment to honesty, quality, and dependability has made Larson Electronics a leader in the lighting and electronics business since 1973. Contact us today at 800-369-6671 or message sales@larsonelectronics.com for more information about our custom options tailored to meet your specific industry needs.
