

**\*RENTAL\* Portable Explosion Proof LED Light - Non-Spark Aluminum Base - 50 Watt Led Light w/ Inline**

Part #: RNT-EPL-BS-70LED-100

**The RNT-EPL-BS-70LED-100 Portable Explosion Proof LED Light from Larson Electronics is rated Class 1 Division 1-2 Groups C & D and Class 2 Division 1-2 and produces 7,000 lumens of light while drawing only 50 watts.**

**This unit is for rentals**

The RNT-EPL-BS-70LED-100 explosion proof LED light provides 4,500 square feet of work area coverage with 7,000 lumens of light output. It is available in 360° and 180° beam spreads. This portable LED light is mounted to a handheld aluminum frame with an explosion proof on/off switch on the back of the frame. The LED light head on this unit produces a brilliant flood pattern of light that is ideal for illuminating enclosed areas and hazardous locations where flammable vapors, gases and dusts may be present.

This explosion proof LED light fixture is comprised of a 50 watt LED light head mounted atop a base stand fabricated from non sparking spun aluminum with a convenient carrying handle built into the top of the stand. The aluminum frame features an explosion proof switch built into the cord wrap on the back of the unit. Included with this LED light is 100 feet of SOOW cord terminating in an 1523 explosion proof straight blade plug.

This unit is also multi-voltage capable and can be configured to operate on 120-277 volts 50/60 Hz. This lamp is T5 temperature rated and the LED light head retains 80% of its lumen output after 60,000 hours of use, far longer than incandescent or fluorescent lamps.

**Note on Beam Spread:** The 360° beam spread is the standard directional output and typical for flood lights. The 180° shines in only one direction. This is good for down lighting, wall packs and for not blinding oncoming traffic or pedestrians.

**Made in USA Quality**

1. Approved Class 1 Div 1-2 Class 2 Div 1-2
2. Led lamp head requires no lamping
3. Durable Base Mount constructed of copper free aluminum
4. No ballast box. No ballast to replace.
5. Extreme long life LEDs reduce maintenance and replacement costs
6. 7,000 Lumens produced from only 50 watts
7. Mercury free shock proof LED lamp light head

**Superior LED Benefits**

1. 50,000+ hour lifespan.
2. Can SAVE 50% or more on energy.
3. 100% recyclable.
4. No toxins-lead, mercury.
5. No UV light, infrared radiation or CO2 emissions.
6. Bright, even light maintains consistent color over time.
7. Instant on/off – No flickering, delays or buzzing.
8. Very good color rendering.
9. Vibration/impact resistant.
10. Significantly cooler operation.
11. Less frequent outages, higher output improves workplace safety.

In an effort to cut back on contracts and various other paper work, Larson Electronics processes rentals like purchases until the product is returned. (Rent to Own Rates) This means, we will charge the customer for the product total and credit back the difference once the fixture is returned. Weekly and Monthly terms are available. Customer must pay shipping to and from the destination. Please contact us at (903) 498-3363 for further information if required.

**Rental Prices for the RNT-EPL-BS-70LED-100**

Monthly...\$510.86 USD

Weekly...\$207.13 USD

Subtract rental cost from total cost for the amount that will be credited back to customer upon return of product. Customer can choose to convert their rental to a purchase at any time during the rental period. When returned, deductions will also be made for shipping, repairs, and excessive cleaning, if needed.
