S-23-13.8V

DC Power Supply - 23 Amp Rating - 110/120 VAC Input - 13.8 Volt DC Output (for 12 VDC Application)

Product ID: 1374

Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

DC Power Supply - 23 Amp Rating - 110/120 VAC Input - 13.8 Volt DC Output (for 12 VDC Application)
This is also known as an AC / DC converter. It converts AC power from a wall outlet to 12 volts DC.
This unit can be plugged into a normal wall outlet and can be used to power 12 Volt lights with up to 23 amp draws. This unit is specifically designed to accommodate HID lights, which typically pull nearly 15 amps to start, before cycling down to amp draws below 5 amps.
The unit offers screw terminals for positive and ground leads. This unit can be used with the HID Post Mount Lights, HID Roof Mount Lights, HID Equipment Lights and HID Off Road Lights.
