

GPNL-480.3P-200A-1X60A-3X30A-20C-3P4W

Power Distribution Panel - 480V 3P - (1) 60A AR642 [480V], (3) 30A AR342 [480V] Receptacles

Product ID: 147260

Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

GPNL-480.3P-200A-1X60A-3X30A-20C-3P4W Power Distribution Panel

Line-In Cord: 20' 2/0 3/4 SOOW Cord

Line-In Cord Cap: 200A APL20468

Primary Voltage: 480V 3-phase

Primary Panel: 200A MB N3R

Primary Breakers: (1) 60A [480V], (3) 30A [480V]

Primary Receptacles: (1) 60A AR642 [480V], (3) AR342 [480V]

Primary Protection: Weatherproof Covers

Frame Materials: -

Dimensions: 34" X 44" X 36"

Weight: 150 pounds

All grounding shall comply with state and local codes and meet the minimum requirements of the National Electronic Code section 250

Features/Ratings

Max OCP Primary: 200A

UL 1640

NEMA 3R Weatherproof

Made in Texas

The Larson Electronics GPNL-480.3P-200A-1X60A-3X30A-20C-3P4W portable power distribution panel allocates 480V AC 3P power to four 480V AC 3P receptacles. This 200-amp unit is supported by a 20' 2/0 3/4 SOOW line-in cord with a 200-amp APL20468 line-in cord cap for connection to a 480V AC power source. The unit provides operators the ability to safely tap into and distribute 480V AC power from a variety of sources including generators and direct grid power.

The GPNL-480.3P-200A-1X60A-3X30A-20C-3P4W power distribution panel from Larson Electronics gives operators the ability to power their 480V AC equipment

via a single system. Operators connect 480V AC 3P line-in power using a 20` 2/0 3/4 SOOW cord with a 200-amp APL20468 line-in cord cap. This is distributed by the 200-amp primary panel to one, AR642 480V AC receptacle (protected by a single 60-amp breaker) and three, AR642 480V AC receptacles (protected by three 30-amp breakers).

All four receptacles provide sealed and secure connections for one connected device per receptacle (total of four) and are equipped with weatherproof covers that protect the faces from rain, water, and moisture when not in use. The housing on the GPNL-480.3P-200A-1X60A-3X30A-20C-3P4W comes with a NEMA 3R enclosure rating. A top located adjustable carrying handle allows operators to carry this unit through the workspace.

Certification: Larson Electronics is a UL 1640 panel shop and certified to build portable power distribution systems. All units are built in accordance to NFPA 70 (National Electric Code) and certified to UL 1640. All equipment is NEMA 3R rated for indoor and outdoor use and provide a degree of protection against dirt, water, and ice. NEMA 4 and NEMA 4X equipment can be equipped upon request.

Larson Electronics is a manufacturer and as such can build transformers to your specifications. Although we carry several models of power distribution systems, we can deliver custom ordered units almost as quickly as our prebuilt units. If this model does not meet your needs, please contact us at 1-800-369-6671 or
