

EPS-PB10-SP0002

Replacement Mushroom Button Switch Assembly for EPS-PB10 Explosion Proof Push Button Switch

Product ID: 147429

Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

The EPS-PB10-SP0002 from Larson Electronics is a replacement mushroom button switch assembly for the [EPS-PB10](#) which is designed for use in hazardous work areas, such as chemical plants, oil refineries and settings where combustible gases or dust may be present. This 10-amp device features the following explosion proof ratings: Class I Divisions 1 and 2; and Class II Divisions 1 and 2. Device box and switch cover sold separately.

Features: The EPS-PB10-SP0002 is a replacement mushroom button switch assembly that can be used to replace broken, damaged or otherwise comprised switch assemblies on the EPS-PB10 explosion proof push button switch. This **DOES NOT** include contact blocks. The device supports operating temperatures between -20°C to 40°C. In industrial and commercial settings, the front-operated push button switch may be used to support basic features of machines lacking electrical circuits for control. With the robust protruding button design, workers using thick gloves may find this mushroom button switch assembly easier to activate, compared to a traditional push button switch design.

Ratings: Class I Divisions 1 and 2 (Groups B, C and D), Class II Divisions 1 and 2 (Groups E, F and G) and Class III explosion proof ratings. The components also comply with UL 894, UL 1203 and UL 698 standards, and support NEMA 3/7, CSA Standard: C22.2 No. 30 ratings.

At Larson Electronics, we do more than meet your lighting needs. We also provide replacement, retrofit, and upgrade parts as well as industrial grade power accessories. Our craftsmen can custom build any lighting system and/or accessories to fit the unique demands of your operation. A commitment to honesty, quality, and dependability has made Larson Electronics a leader in the lighting and electronics business since 1973. Contact us today at 800-369-6671 or message sales@larsonelectronics.com for more information about our custom options tailored to meet your specific industry needs.
