MEXC-8-5C-100-40A-MFC.22992-2X20A

100' 8/5 Type W Extension Cord - (1) 5-Pin Milspec Plug - Duplex GFCI - 40 Amp - Navy Marine Rated

Product ID: 147453

Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

Made in the USA

The Larson Electronics MEXC-8-5C-100-40A-MFC.22992-2X20A 100` 8/5 Type W cord 5-pin Milspec connectors extension power cord is designed for heavy duty and outdoor applications. This rugged extension cord is constructed of 8/5 Type W cord, equipped with a 40-amp rated Class L MIL-DTL-22992 male connector on one end and two 5-20R GFCI on the other end, and allows operators to extend power to equipment when stationary outlets are not readily available.

The MEXC-8-5C-100-40A-MFC.22992-2X20A extension cord provides a safe and effective way for operators to extend 120V and power a variety of devices for plant maintenance, power generators, construction and other temporary applications within marine and off-shore environments. 100 feet of 8/5 Type W cord is terminated in a 40-amp rated Class L MIL-DTL-22992 male 5-pin plug on one end and two 20-amp rated 5-20R GFCI protected duplex receptacles on the other end. The included 5-pin male connector and female receptacles are designed for extreme durability and to retain functionality in even the most abusive of

conditions.
Applications: This power distribution system is ideal for indoor or outdoor use and applications including but not limited to, on-shore or off-shore generators, construction sites, shows, exhibits, industrial equipment, uninterruptible power supplies (UPS battery backups), and shipyard operations. These Milspec rated extension cords are popularly used in marine applications where external power sources are often necessary. We also offer class rated extension cords for use within explosion proof and hazardous location environments.
Larson Electronics is a manufacturer and as such can build extension cords and portable transformer systems to your specifications. Although we carry several models of power distribution transformers, we can deliver custom ordered units almost as quickly as our prebuilt units If this model does not meet your needs, please contact us at 1-800-369-6671 or sales@larsonelectronics.com to discuss your specific requirements.
