CL1B-SS-PM-1227

Class 1 LED Beacon w/ 30 Strobing Light Patterns - 1440 Lumens - 120-277V AC - Marine Applications

Product ID: 147655

Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

CL1B-SS-PM-1227 Pole Mount Strobe Light

Lamp Type: LED
Dimensions: 4.5" x 6.5"
Lamp Weight: 3 lbs
Voltage: 120-277V AC
Wattage: 14.4
Lumens: 1,440
Luminous Efficiency: 100 Lumens per Watt
Lighting Configuration: Strobing Flash
Ambient Temp: -45°C to +55°C
Mounting: Conduit Mount via Stainless Steel Mounting Base
Wiring: Direct Wiring to Power Source

Ratings/Approvals

SAEJ845, Class 1- Brightest Rating
Multi-Strobe Pattern Options
Waterproof
Non-metallic/Weatherproof Wiring Box

Made in the USA

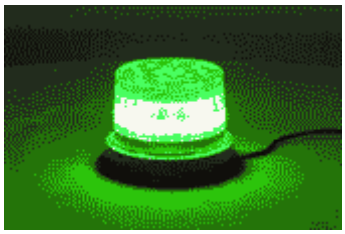

The Larson Electronics CL1B-SS-PM-1227 Class 1 Pole Mounted LED Beacon is suitable for warning and safety notifications in marine/saltwater locations. This compact unit operates on 120-277V AC and supports 30 strobing patterns. A non-metallic weatherproof wiring box protects internal connections of the LED light. This unit is offered in range of colors and selectable entry points for mounting compatability.
The high powered LED beacon produces 360° of brilliant light without dark spots

or unevenness typically found in traditional incandescent beacon lights. This unit is equipped with auxiliary LEDs on top, helping make this a Class 1 rated beacon. The luminary is capable of producing a brilliant flashing pattern that is visible at extended distances. Available in a choice of white, green, blue, amber or red, this strobing beacon supports a conduit mounting system via a stainless steel mounting base (choice of entry points for mounting include: top, side or bottom). The robust mounting system provides maximum mounting security and reliable performance.

Available in Green, Amber, Red, White, and Blue. Choose your desired color below.

This CL1B-SS-PM-1227 supports 30 flash patterns including four simulated rotating patterns. This unit also offers alternate or simultaneous flash patterns with up to eight connected LED beacons. The waterproof beacon features a non-metallic weatherproof wiring box that houses the internal connections of the unit. A clear polycarbonate lens protects the LED assembly and the housing is waterproof, shock resistant and built for reliable and durable operation. This LED beacon draws only 0.12 amps on 120 volts and operates on 120-277V AC (universal voltage).

Applications: Marine locations, docks, shipyards, boating facilities, saltwater applications, offshore rigs, safety lighting, warning systems and more.

At Larson Electronics, we do more than meet your lighting needs. We also provide replacement, retrofit, and upgrade parts as well as industrial grade power accessories. Our craftsmen can custom build any lighting system and/or accessories to fit the unique demands of your operation. A commitment to honesty, quality, and dependability has made Larson Electronics a leader in the lighting and electronics business since 1973. Contact us today at 800-369-6671 or message sales@larsonelectronics.com for more information about our custom options tailored to meet your specific industry needs.
