

EPL-HB-250W-REB

External Ballast for EPL-HB-250W Light Fixtures for Remote Mounting Ballast

Product ID: 148067

Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

External Ballast for EPLC2-250MH-EB Light Fixtures for Remote Mounting Ballast

This ballast is used in combination with the EPLC2-250MH-EB explosion proof light fixtures.

This ballast is mounted in a remote location, external from the fixture. This allows the fixture to be installed in high heat (hot box) applications where the ballast would not survive the high temperatures.

Choose metal halide or high pressure sodium lamp type when ordering.

Frequently Asked Questions (FAQ)

EPL-HB-250W-REB

Product ID: 148067

Export Control Classification Number (ECCN): EAR99

Options:

EPL-HB-250W-REB-Lamp Type

Example: EPL-HB-250W-REB-MH

Lamp Type	
METAL HALIDE	-MH
HIGH PRESSURE SODIUM	-HPS
