HUL-LED25WRE-CPR-HVMT

25W Havis Mount Police LED Spotilight - 6 Million Candlepower - 12-32V DC - 1000' Beam - Pistol Grip

Product ID: 148131

Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

HUL-LED25WRE-CPR-HVMT Havis Mount Police LED Spotlight

Lamp Type: Cree LED
Dimensions: 10.75"H x 4.36"W x 3.75"D
Weight: 1.75 lbs.
Voltage: 12-32V DC
Total Watts: 25W
Total Lumens: 2,000
Luminous Efficacy: 80 Lm/W
LED Lamp Life Expectancy: 50,000+ Hours
Beam Type: Spot
Housing Material: ABS Polymer & Aluminum Alloy
Housing Color: Black
Lens Material: Polycarbonate
Mounting: Havis Mount / Handheld Use

Quick Summary

IP67 Waterproof
Dustproof
Shockproof
Impact/Vibration Resistant Construction
Lightweight
Portable
Red, Green, and Flood Lenses Available
Havis Mount for Police Use

The HUL-LED25WRE-CPR-HVMT Havis Mount Police LED Spotlight from Larson Electronics carves a brilliant path through even the darkest of nights to provide police officers and other law enforcement agents with a reliable and powerful source of high-intensity LED light. This unit combines high output Cree LEDs

and a 120mm parabolic reflector to deliver a powerful 2,000 lumens with a focused beam reach of over 1,000 feet while drawing only 25 watts of power. An articulated light head gives operators precise control over the beam position. Equipped with a 12-32V DC vehicle plug and Havis mount, this IP65 rated waterproof spotlight is ideal for police, law enforcement and other first responders and emergency services.

Light Features: The HUL-LED25WRE-CPR-HVMT handheld spotlight delivers an impressive 2,000 lumens while drawing only 25 watts of energy. With a combination of high output Cree LEDs and a 120mm parabolic reflector, this spotlight projects a tightly focused cool white beam reaching up to 1,000 feet. This beam clearly and sharply illuminates objects all the way to the end of the beam reach. The Cree LED units in this light have been chosen for their high lumen per watt ratio and extreme longevity. These Cree LEDs generate 80 lumens per watt effective lumen output and have a 70% lumen retention at 50,000 hours, giving them better efficiency and operational life than traditional light sources.

This IP65 rated spotlight features an ultra-durable ABS polymer body, an aluminum alloy light head housing, and an impact resistant polycarbonate lens. Waterproof, dustproof, and shockproof, the HUL-LED25WRE-CPR-HVMT is built to work hard and survive demanding outdoor use. In addition to those features, the Havis mount on this spotlight allows it to be mounted on Havis Control units in squad cars and other law enforcement vehicles for quick and easy access to a powerful and intense source of LED light.

While the HUL-LED25WRE-CPR-HVMT is built to withstand rugged use and harsh outdoor conditions, comfort and ease of operation haven`t been sacrificed. This unit is ergonomically designed for balanced and comfortable handling. The HUL-LED25WRE-CPR-HVMT features an articulated light head that can be tilted up and down independently of the handle for more precise beam positioning. The nylon handle has a no-slip textured surface that ensures a firm grip even in wet conditions. The booted push button provides additional protection from dust and water and is conveniently placed to allow operators easy forefinger access to the switch for quick on/off action even while wearing gloves.

LED Benefits: Unlike gas burning and arc type lamps that have glass bulbs, LEDs have no filaments or fragile housings to break during operation and/or transportation. Instead of heating a small filament or using a combination of gases to produce light, light emitting diodes (LEDs) use semi-conductive materials that illuminate when electric current is applied, providing instant illumination with no warm up or cool down time before re-striking. Because there is no warm up period, this light can be cycled on and off with no reduction in lamp life.

LED lights run at significantly cooler temperatures than traditional metal halide and high pressure sodium lights and contain no harmful gases, vapors, or mercury, making them both safer and more energy efficient. No extra energy is wasted in cooling enclosed work areas due to external heat emissions from bulb type lights, and the operator risks associated with traditional lighting methods, such as accidental burns and exposure to hazardous substances contained in the glass bulbs, are eliminated. In addition, LEDs are also safer for the environment as they are 100% recyclable, which eliminates the need for costly special disposal services required with traditional gas burning and arc type lamps.

Cree Specific: This lamp uses Cree LED units that have been chosen for their high lumen per watt ratio and extreme longevity. These Cree LEDs generate a robust 80 lumens per watt effective lumen output and have a 70% lumen retention at 50,000 hours, giving them better efficiency and operational life than traditional light sources. The Cree LED units in this light have been chosen for their high lumen per watt ratio and extreme longevity. These Cree LEDs generate 80 lumens per watt effective lumen output and have a 70% lumen retention at 50,000 hours, giving them better efficiency and operational life than traditional light sources.
Power/Plug: The HUL-LED25WRE-CPR-HVMT is equipped with a spring cord and cigarette lighter plug that is designed to operate with any 12-32V DC vehicle charger.

16ft Coil Cord w/Cigarette Plug

21ft Cord with Ring Terminals

16ft Cord w/Battery Clamps

16ft Cord with Cigarette Plug

Each light comes with a detachable 16 foot coil cord with cigarette plug. The cord is detached via a weatherproof, 2 pin Deutsch connector which easily and securely attaches and detaches the coil cord from the spotlight. Other cords, including 21 foot cords with ring terminals (C-21RT), 16 foot cord with spring battery clamps (alligator clips) (C-16BC) and a 16 foot straight cord with cigarette plug (C-16CP) are available. This light can be ordered in configuration from 12-32V DC, allowing it to be used with any vehicle or ATV equipped with a cigarette plug. Choose voltage below when ordering.

Mounting: The HUL-LED25WRE-CPR-HVMT is equipped with a Havis mount for easily mounting the spotlight to Havis Control units in squad cars and other law enforcement vehicles. This mount features a quick chain disconnect that securely holds the spotlight in place when not in use while simultaneously offering fast removal for situations that immediately require a high-intensity, handheld source of LED light. This mount makes the HUL-LED25WRE-CPR-HVMT an incredible versatile police and law enforcement spotlight.
Applications: Police, Law Enforcement, Border Patrol, Emergency Services and First Responders
At Larson Electronics, we do more than meet your lighting needs. We also provide replacement, retrofit, and upgrade parts as well as industrial grade power accessories. Our craftsmen can custom build any lighting system and/or accessories to fit the unique demands of your operation. A commitment to honesty, quality, and dependability has made Larson Electronics a leader in the lighting and electronics business since 1973. Contact us today at 800-369-6671 or message sales@larsonelectronics.com for more information about our custom options tailored to meet your specific industry needs.

High Quality Features

1. Low power consumption.
2. Instant on/off operation.
3. ABS shockproof polymer body.
4. Aluminum alloy light head housing.
5. Retains 70% lumen output after 50,000 operating hours.
6. Ergonomic nylon handle.
7. Built for Toughness and Durability
8. Low profile - Lightweight
9. 2,000 Lumen output from only 25 watts.
10. Havis mount allows for easy mounting and access in squad cars and other law enforcement vehicles.

Superior LED Benefits

1. 50,000 hour lifespan.
2. Can SAVE 50% or more on energy.
3. Qualifies retrofit projects for financial incentives, including utility rebates, tax credits and energy loan programs.
4. Reduces energy use and prolongs life-spans of peripheral cooling units (A/C, refrigeration)
5. 100% recyclable.
6. No toxins-lead, mercury.
7. No UV light, infrared radiation or CO2 emissions.
8. Qualifies buildings for LED and other sustainable business certifications.
9. Bright, even light maintains consistent color over time.
10. Instant on/off - No flickering, delays or buzzing.
11. Very good color rendering.
12. Vibration/impact resistant.
13. Significantly cooler operation.
14. Less frequent outages, higher output improves workplace safety.
