

DGP-xx-SP3105-2IN

2" Vented Fuel Cap for Larson Electronics' Gensets & Diesel Powered Generators - 2" NPT Thread

Product ID: 148392

Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

The DGP-xx-SP3105-2IN from Larson Electronics is a Vented Fuel Cap for gensets and diesel powered generators.

The DGP-xx-SP3105-2IN is a two inch vented fuel cap that is compatible with gensets and diesel powered generators from Larson Electronics. The DGP-xx-SP3105-2IN can be used to replace lost, missing, damaged or otherwise compromised genset and diesel powered generator fuel caps. This vented fuel cap is constructed from durable aluminum and steel and weighs three pounds.
