Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

The MMP-FSD-F250-2011 is constructed in Texas from durable aluminum for the frame and a steel plate on aluminum brackets for the mounting plate surface. This magnetic spotlight mounting plate has been specifically designed for 2011 model year and Ford F250 pickup trucks and offers operators a sturdy and reliable platform to deploy magnetic mount lights of any type such as spotlights, strobes, beacons, hunting spotlights, signal lights, security lights and warning lights, on the top of their truck for optimal performance. The MMP-FSD-F250-2011 requires absolutely no drilling and is instead installed via the rear cab lights and features a weatherproof seal on the back side of the plate for secure, dry installation. This helps to prevent unnecessary damage to the truck body. The mounting plate is powder coated for added durability, and offered in a black, white, or grey finish. The MMP-FSD-F250-2011 also features a windload okay for highway speeds. (User provided equipment may vary.)
Having a reverse camera or an LED for the 3rd brake light will change the mounting bracket design. Those with a camera or LED must choose the "camera" option in order to get the correct design. Please choose the appropriate option below.

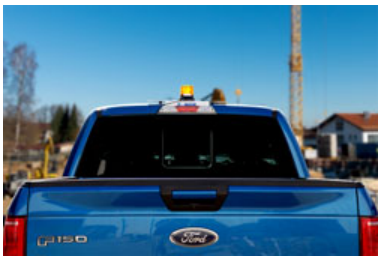

Aluminum Body is Not Magnetic

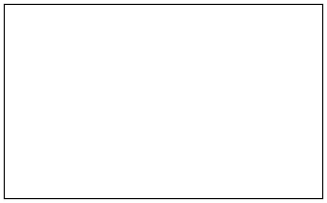

MMP-FSD-F250-2011 Steel Plate is Magnetic

Applications: Off-roading, property management, security, search and rescue, farming operations and any other applications for which a roof mounted spotlight is needed for 2011 model year Ford F250 truck owners.
