

BATT-9V-10PK

9V 1.2Ah Batteries - 10 Pack

Product ID: 148979

Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

The Larson Electronics BATT-9V-10PK is a 10 pack of 9V 1.2Ah batteries. These high-energy batteries feature up to 5 times more energy than alkaline and up to 10 times more than carbon zinc. The high running voltage, combined with the flat discharge voltage curve, low impedance, better performance at low temperatures, wide operating temperature range, advanced safety features and lightweight make these a long-lasting alternative to any comparable 9V battery. Each of these batteries feature a 10 year service/shelf life, as well as, meet ANSI Alkaline 1604 size specifications.

BATT-9V-10PK 9-Volt Battery 10-pack

Unit Type: 9 Volt, Non-Rechargeable

Chemistry: LiMnO₂

Voltage (Nominal): 9.0V

Capacity (Nominal): 1.2 Ah

PTC (Re-settable Fuse): Yes

Operating Temperature: -20°C to +60°C

Storage Temperature: -40°C to +60°C

Qty: 10

Shelf Life: 10 years
