Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

The EXP-TBLT-10I-DBI from Larson Electronics is an Adjustable Ball Mount that features a 2" round mounting base with a universal AMPS hole pattern and a 1" rubber ball and socket system that offers operators unlimited adjustment points for a precise hold. This adjustable ball mount provides secure mounting for the Larson Electronics` 10" Explosion Proof Tablet.

The EXP-TBLT-10I-DBI is an ideal mounting solution for the 10" explosion proof tablet offered by Larson Electronics. This adjustable ball mount will securely hold the tablet at any desired position or angle. This offers operators a great deal of versatility when using the explosion proof tablet in the work place or on the job site. The innovative rubber ball and socket system allows for almost infinite angle adjustments and provides operators with an ideal viewing angle for the attached

tablet.

The EXP-TBLT-10I-DBI from Larson Electronics is designed to securely grip 10" tablets so that operators may use them without any fear of the tablet coming loose or falling. This mount features rubber coated arm tips to prevent any scratches or other tablet damage. The tablet arms are also spring-loaded to gently yet firmly grip the edges of the tablet without blocking any of the ports. Rear mounted, easy-access grip knobs on the back of the mount control the spring. Simply squeeze the knobs to release your device.

Mounting: The EXP-TBLT-10I-DBI features a 2" round mounting base with a universal APMS hole pattern. This allows the EXP-TBLT-10I-DBI to be mounted on a wide array of surfaces both horizontally and vertically. The mounting versatility of this mount allows operators to install it wherever they need it for ideal tablet viewing and operation.

Compatibility: The EXP-TBLT-10I-DBI adjustable ball mount is compatible with the Larson Electronics` [EXP-TBLT-10I-W10-128G-4G](#) 10" Explosion Proof Tablet.

Suggested Applications: Vehicles, boats, workbenches, toolboxes and any other AMPS compatible mounting surfaces where tablet mounting is required within a hazardous work environment.

At Larson Electronics, we do more than meet your lighting needs. We also provide replacement, retrofit, and upgrade parts as well as industrial grade power accessories. Our craftsmen can custom build any lighting system and/or accessories to fit the unique demands of your operation.
