HALPRM-1000WHPS-380.400V

1000W High Pressure Sodium Light - C1D2 Groups A-D - T3b Temperature - 125,000 Lumens - 50Hz

Product ID: 149774

Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

HALPRM-1000WHPS-380.400V High Pressure Sodium
Lamp Type: High Pressure Sodium
Dimensions: 22"W x 11"D x 26-1/4"H w/ Yoke Mount
Watts: 1000
Lumens Per Watt: 100-115 Approx.
Voltage: 380/400V AC, 50Hz
Lighting Configuration: Flood Pattern
Mounting: Fit Pole Mount or Zinc Trunnion
Weight: 45 lbs
U.L. Listing: Outdoor Marine Approved
Total Lumens: 125,000
Wiring: 3/4 inch Threaded NPT Conduit Entrance

Approvals/Ratings
Class I, Division 2 Groups A, B, C & D
UL Standard 1598 (supersedes UL Standard 57)
UL Standard 844
Class I Div. 2 UL Standard 1598A
Max OP Temp 32°5C (T1 NEC ID Number)
Operating temperature 325 degrees C (T3b)

Made in the USA

The extremely durable Larson Electronics HALPRM-1000WHPS-380.400V high pressure sodium hazardous area light produces exceptional illumination from a 1000 watt high pressure sodium lamp. Constructed of die cast aluminum and U.L. listed for marine use, this metal halide fixture is a versatile and ideal hazardous area lighting solution for areas where wet or corrosive environments are encountered.

The rugged HALPRM-1000WHPS-380.400V high pressure sodium light fixture is weatherproof and suitable for use in wet, outdoor and marine environments, making it an ideal lighting solution for industrial applications, boat docks, building exteriors and outdoor work areas. The lamp housing is weatherproof and constructed of pressure cast copper free aluminum with an architectural bronze Polyester finish. The lens door is pressure-cast copper-free aluminum, and secured with 1/4" diameter captive stainless steel slotted hex-head bolts. This unit features an integral multi- tap ballast that operates on 380/400V AC.
The optical assembly includes thermal shock and impact resistant door glass with a pressure-cast copper-free aluminum door frame and heavy duty, high temperature silicone rubber seal. The lamp socket is a specification grade mogul base porcelain unit with heavy gauge brass, a nickel-plated, double lamp-grip screw shell and spring-loaded center contact. The reflectors are a double segment compound parabolic design with Alzak® finish for maximum efficiency.
Mounting choices include:

1. Yoke mount: zinc plated steel yoke with architectural bronze Polyester finish.
2. Pole top mount: built-in slip-fitter for internal wiring. Adjustable laterally and vertically. Slip fits 2" or 2 1/2" pipe. Architectural bronze Polyester finish.

This hazardous area light is rated IP65, U.L. standard 844 and 1598 compliant, approved Class I Division 2, Groups A, B, C & D, and U.L. listed 1598A for outdoor salt water marine environments. The integral multi-tap ballast is protected within the weatherproof housing and has primary electrical taps for 380/400V AC. This lamp is suitable for use in areas where flammable petrochemical vapors are sometimes present.
This 1,000 watt high pressure sodium light is highly durable, produces 125,000 lumens in a wide flood pattern, and has a maximum operating temperature of 325°C (T1 NEC Identification Number). All hardware on this unit is resistant to rain, snow, salt water and corrosive chemicals. The heavy duty design and attractive finish of this fixture makes it a popular choice for outdoor applications regardless of whether the locations are designated hazardous or not.
LAMPS: Use only lamps specified on nameplate. Bulb not included with fixture. Observe lamp manufacturer's recommendations and restrictions on lamp operation, particularly ballast type, burning position, etc.

Click Here for Notes on Wiring this Light

Make all electrical connections in accordance with the National Electrical Code and any applicable local code requirements. Verify that supply voltage is correct by comparing it to nameplate. Three-conductor No. 14 cable (with 90° C minimum insulation) is recommended for making electrical connections. Wiring is accomplished through the wiring box provided on the fixture. The box is provided with a size 3/4-in. NPT threaded conduit opening. Wiring methods must comply with NFPA 70 (The National Electrical Code), Article 501 for Class I, Division 2 Hazardous (Classified) Locations. To get inside the unit, open the door, loosen the (2) screws holding the reflector and remove the reflector. Verify the correct supply voltage and lamp wattage. Bulb not included.
At Larson Electronics, we do more than meet your lighting needs. We also provide replacement, retrofit, and upgrade parts as well as industrial grade power accessories. Our craftsmen can custom build any lighting system and/or accessories to fit the unique demands of your operation. A commitment to honesty, quality, and dependability has made Larson Electronics a leader in the lighting and electronics business since 1973. Contact us today at 800-369-6671 or message sales@larsonelectronics.com for more information about our custom options tailored to meet your specific industry needs.
