

IND-SW-1XPL.G-1XPB.G-N4X

Non-Metallic Momentary Switch w/ Pilot Light - Push Button - NEMA 4X - Marine Approved

Product ID: 150021

Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

IND-SW-1XPL.G-1XPB.G-N4X Non-Metallic Momentary Switch & Pilot Light

Type: Momentary Switch & Pilot Light

Dimensions: 3.95"W x 4.21"H x 4.16"D

Voltage Rating: 12V-254V, AC/DC

Ambient Operating Temp Range: -50°C to +60°C

Housing Materials: Non-Metallic Glass Reinforced Impact Resistant Antistatic Material

Housing Color: Black

Button Color: Green

Gasket Material: Silicone

Mounting: Din Rail Mount

Wiring Hub: (1) 3/4" NPT SS Hub

Ratings/Approvals

The **IND-SW-1XPL.G-1XPB.G-N4X** from Larson Electronics is a non-metallic momentary push button and pilot light assembly that is NEMA 4X weatherproof, ideal for marine usage. This ATEX certified push button switch has a din rail mount design and is constructed of an impact resistant glass reinforced non-metallic material with silicone gaskets. The **IND-SW-1XPL.G-1XPB.G-N4X** has a black housing color with a green push button and green pilot light boasts a compact size for convenient mounting and use.

This weatherproof non-metallic momentary switch and pilot light unit is designed for din rail mounting. It's corrosion resistant construction makes it ideal for mounting and use in wet locations and marine environments. This non-metallic momentary switch with pilot light has an ambient operating temperature of -50°C to +60°C and can be used in conjunction with motor starters or contactors for remote operation of motors.

The IND-SW-1XPL.G-1XPB.G-N4X features a non-metallic housing that is constructed of a PA6 glass reinforced antistatic material that is impact resistant, fl UV resistant and has a flame retardant rating of V-0. The NEMA 4X rated enclosure provides protection against corrosion from water and the formation of ice, the ingress of dust and other external foreign objects. The housing on this switch is black and the buttons and pilot light are green which offers plenty of contrast for easy visibility of the button. This switch has a 3/4" NPT SS hub and features silicone gasketing throughout.

At Larson Electronics, we do more than meet your lighting needs. We also provide replacement, retrofit, and upgrade parts as well as industrial grade power accessories. Our craftsmen can custom build any lighting system and/or accessories to fit the unique demands of your operation. A commitment to honesty, quality, and dependability has made Larson Electronics a leader in the lighting and electronics business since 1973. Contact us today at 800-369-6671 or message sales@larsonelectronics.com for more information about our custom options tailored to meet your specific industry needs.
