

LEDWL-ZN-FKLT-BLU

27W LED Forklift Zone Light - Pedestrian Safety - Blue Light - 10-100V DC - Aluminum Alloy

Product ID: 150226

Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

LEDWL-ZN-FKLT-BLU LED Forklift Zone Light

Unit Type: CREE LED (Blue)
Dimensions: 5.77" x 2.39" x 2.12"
Weight: -
Voltage: 10-100V DC
Current: 12V @ 2.2A
Watts: 27W
Lumens: 2,350
LED Life Expectancy: 50,000+ Hours
Beam Type: Blue Zone Line
Beam Profile: 30° x 1.5" @ 15" (Height)
Housing: Die-cast Aluminum Alloy
Lens: Polycarbonate
Mounting: 304L SS Brackets
Wiring: Power Cord
Color: Black

Made in the USA

The Larson Electronics LEDWL-ZN-FKLT-BLU LED Forklift Zone Light is suitable for illuminative safety on forklifts in busy work sites, such as warehouses and delivery bays. This LED fixture consumes 27 watts and emits 2,350 lumens of blue light during operation. The low profile LED mounts on forklifts and surfaces via two 304L stainless steel brackets.

The LEDWL-ZN-FKLT-BLU is a powerful LED zone light for forklifts and operational safety in industrial facilities. This 27-watt unit emits 2,350 lumens of blue light during use. Compared to a laser safety light, the LED fixture provides a wider zone line for enhanced visibility and detection. At a height of 15 feet, the LED lamp provides a 30' x 1.5' beam configuration. Operating on 10-100V DC, the LED pedestrian safety light is compatible with a range of standard forklift voltages, including 12V, 24V, 36V and 48V.

[Click Photo to Enlarge](#)

Constructed of die-cast aluminum alloy, the LED pedestrian safety light features a polycarbonate lens. A forklift may incorporate this LED light at the front, back or both ends of the forklift body. Alternatively, operators may also install a red version of this zone light (LEDWL-ZN-FKLT-RED) for multi-colored safety lighting or as a standalone red forklift safety lamp.

Mounting/Wiring: The LEDWL-ZN-FKLT-BLU can be mounted on forklifts and surfaces using two included 304L stainless steel brackets located at the bottom of the LED lamp, which can be secured using two screws (holes provided). Once mounted, operators can adjust the position of the LED zone light accordingly to match their preferences. This unit comes with a power cord for completing electrical connections.

Applications: Pedestrian safety, forklift operations, zone lights, warehouses, compact vessels, carts, illuminative safety, industrial buildings and more.

At Larson Electronics, we do more than meet your lighting needs. We also provide replacement, retrofit, and upgrade parts as well as industrial grade power accessories. Our craftsmen can custom build any lighting system and/or accessories to fit the unique demands of your operation. A commitment to honesty, quality, and dependability has made Larson Electronics a leader in the lighting and electronics business since 1973. Contact us today at 800-369-6671 or message sales@larsonelectronics.com for more information about our custom options tailored to meet your specific industry needs.
