EPPH-C390

Glass Reinforced Plastic Acoustic Booth for Explosion Proof Phones and Intercoms

Product ID: 150547

Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

EPPH-C390 Hazardous Area Acoustic Booth
Unit Type: Polyeurethane Lined Acoustic Booth
Dimensions: 27.2"H x 27.2"W x 24"D
Body Construction: Fiberglass Reinforced Plastic
Booth Lining: Polyeurethane
Mounting: Vertical Wall
Color: Yellow, Orange, White or Black
Noise Attenuation: Up to 25 dB

Features/Quick Summary
Glass Reinforced Plastic
Noise Attenuation up to 25 dB
Encapsulated Strong Points for Secure Mounting
Convenient Writing Shelf
Indoor/Outdoor Use

The EPPH-C390 by Larson Electronics is an Industrial Acoustic Booth made of high polyurethane designed for heavy industrial and hazardous locations such as refineries, steel mills, factories, off-shore platforms, and any high-noise industrial location. It reduces sound levels by 25dB, greatly enhancing communication in areas with high backgroun noise, while alsoe protecting equipment and users from the elements.
This hazardous area acoustic booth has a shell constructed of durable, yet lightweight reinforced laminate-fiberglass with a polyeruethane acoustic liner. The booth is completely maintenance free, resistant to corrosion and UV rays, and completely impervious to chemicals. The unit is safe to use both indoors and

outdoors, as well as off-shore, and has a writing shelf for taking notes during calls, as well as encapsulated strong points for secur mounting.
