

WAL-STK-3C-V2

8W LED Stack Light - White, Amber, Red - Polycarbonate - Base/Surface Mount - IP65

Product ID: 150883

Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

WAL-STK-3C-V2 LED Stack Light

Lamp Type: LED Signal Light

Dimensions: 12.49" x 2.76" x 2.76"

Weight: -

Voltage: 12V/24V DC, 110V/220V AC

Watts: 8W

LED Lamp Life Expectancy: 50,000+ Hours

Beam Angle: Full, 360 Degrees

Lighting Configuration: Steady Burn (Non-flashing)

Materials: Polycarbonate

Mounting: Base/Surface Mount

Colors: White, Amber, Red

Ratings

3-color Stack Light

IP65

Made in the USA

The WAL-STK-3C-V2 LED Stack Light from Larson Electronics is designed for illuminative signaling in industrial facilities. The 8-watt signal lamp is offered in a combination of three colors: white, amber and red. Constructed of polycarbonate, the IP65-rated unit can be mounted on flat surfaces.

The WAL-STK-3C-V2 is a compact and energy efficient stack light for signaling in busy work sites and facilities. The 8-watt LED lamp consists of the following colors: white, amber and red. This unit is compatible with 12V/24V DC or

110V/220V AC voltages. A full, 360-degree beam angle in a steady burn, non-flashing configuration provides maximum visibility during operation. The LED stack light is constructed of polycarbonate. An IP65 rating ensures protection from water in indoor or outdoor locations.

LED Benefits: Unlike gas burning and arc type lamps that have glass bulbs, LEDs have no filaments or fragile housings to break during operation and/or transportation. Instead of heating a small filament or using a combination of gases to produce light, light emitting diodes (LEDs) use semi-conductive materials that illuminate when electric current is applied, providing instant illumination with no warm up or cool down time before re-striking. Because there is no warm up period, this light can be cycled on and off with no reduction in lamp life. LED lights run at significantly cooler temperatures than traditional metal halide and high pressure sodium lights and contain no harmful gases, vapors, or mercury, making them both safer and more energy efficient. No extra energy is wasted in cooling enclosed work areas due to external heat emissions from bulb type lights, and the operator risks associated with traditional lighting methods, such as accidental burns and exposure to hazardous substances contained in the glass bulbs, are eliminated. In addition, LEDs are also safer for the environment as they are 100% recyclable, which eliminates the need for costly special disposal services required with traditional gas burning and arc type lamps.

Mounting: This stack light features a sturdy, circular base and allows operators to mount the unit on flat surfaces. A total of four mounting holes are available on the base for seamless installations.

Applications: Safety lighting, signaling systems, manufacturing, warehouses, industrial plants and more.

At Larson Electronics, we do more than meet your lighting needs. We also provide replacement, retrofit, and upgrade parts as well as industrial grade power accessories. Our craftsmen can custom build any lighting system and/or accessories to fit the unique demands of your operation. A commitment to honesty, quality, and dependability has made Larson Electronics a leader in the lighting and electronics business since 1973. Contact us today at 800-369-6671 or message sales@larsonelectronics.com for more information about our custom options tailored to meet your specific industry needs.

Frequently Asked Questions (FAQ)

WAL-STK-3C-V2

Product ID: 150883

Export Control Classification Number (ECCN): EAR99

Options:

WAL-STK-3C-V2-Voltage

Example: WAL-STK-3C-V2-120V

Voltage	
120V	-120V
240V	-240V
12V	-12V
24V	-24V
