LED-CVT-IR940-AF-V3

2x2 Covert Infrared LED Emitter - IR 940 nm - Wide Flood Beam Configuration - 4-way Rubber Mount

Product ID: 151249

Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

LED-CVT-IR940-AF-V3 Infrared LED Light
Unit Type: Covert Infrared Emitter
Case Dimensions: 2" x 2"
Weight: -
Voltage: 12V DC
Watts: 1W
LED Expected Lifespan: 50,000+ Hours
IR Wavelength: 940 nm
Case Materials: Plastic
Mount: 4-way Rubber Mount (Air Vents)
Wiring: 12V +/- Leads

Features/Ratings
Discreet IR LED Light
Wide Flood Beam Configuration

Made in the USA

The Larson Electronics LED-CVT-IR940-AF-V3 Covert Infrared LED Emitter is designed for discreet surveillance operations and systems. This device features 1-watt infrared LEDs (940 nm) in a wide flood beam configuration, which mounts on standard air vents inside vehicles via a 4-way rubber mounting feature.

The LED-CVT-IR940-AF-V3 is a covert infrared LED emitter for discreet monitoring and surveillance. This unit measures 2" x 2" and is equipped with 1-watt infrared LEDs. During use, the device emits an infrared wavelength of 940 nm in a wide

flood beam configuration. The sample image below shows the infrared LED emitter illuminating a 3-foot wide shelf from a distance of 3 feet.

Mounting/Wiring: The LED-CVT-IR940-AF-V3 comes with 12V DC +/- wiring leads. This allows operators to feed the wire in a hidden manner through air vents for power during installation. The covert infrared LED emitter mounts on conventional air vents inside vehicles via a 4-way rubber mounting mechanism located behind the device. When installed properly, the unit lays flush on the surface.

Applications: Law enforcement, covert operations, surveillance, nighttime monitoring, police, discreet illumination and more.

At Larson Electronics, we do more than meet your lighting needs. We also provide replacement, retrofit, and upgrade parts as well as industrial grade power accessories. Our craftsmen can custom build any lighting system and/or accessories to fit the unique demands of your operation. A commitment to honesty, quality, and dependability has made Larson Electronics a leader in the lighting and electronics business since 1973. Contact us today at 800-369-6671 or message sales@larsonelectronics.com for more information about our custom options tailored to meet your specific industry needs.
