

EXC-5-12.3-125V-2P3W-20A-C

5' 12/3 SOOW Cord - 125V - 20A - Weatherproof Pin/Sleeve Connector - 5-20P General Area Plug
Product ID: 152747

Please see last page for supporting documentation for this product(certificates, CAD files & drawings, IES files, wiring diagrams, etc).

Larson Electronics LLC manufactures a wide variety of products, including custom built to spec designs. The pictures displayed for this unit are a general representation of form factor for the product line and may not accurately represent this exact configuration in every detail due to custom builds and changes between similar products in our standard catalog. The specifics for this configuration are listed in the specification table and supporting documentation (CAD files, Dimensional Drawing, Name Plate Diagram, Wiring Diagram, etc.). This means that specific details (receptacles, plugs, wires, connections, mounting brackets, external finishes, etc.) may not be accurately represented in images vs specifications. Please review specifications and do not order based solely on images.

EXC-5-12.3-125V-2P3W-20A-C 5` Cord w/ Pin and Sleeve Connector

Male Cord Cap: 5-20P - General Area
Female Connector: Pin/sleeve - 2P3W
Voltage Rating: 125V
Max Amp Rating: 20A
Cable Type: 12/3 SOOW
Cable Length: 5` Between Plug and Connector
Weight: -

Approvals/Ratings

Weatherproof Connector
Hot Work Permit

Made in the USA

The EXC-5-12.3-125V-2P3W-20A-C from Larson Electronics is a 5' 12/3 SOOW Line Cord with Pin and Sleeve Connector that is designed for heavy duty and outdoor applications. This rugged extension cord is constructed of 12-gauge 3-conductor wire and is equipped with a 5-20P general area plug and a pin/sleeve GAU-125V-2P3W-20A-C connector. The 20-amp rated unit features a voltage rating of 125V and allows operators to utilize industrial and explosion proof plugs with standard 5-20R receptacles.

The EXC-5-12.3-125V-2P3W-20A-C line cord provides a safe and effective way for operators to power a variety of general use devices within a hazardous location with a hot permit. Five feet of chemical and abrasion resistant flexible 12/3 SOOW cord is terminated in a pin and sleeve GAU-125V-2P3W-20A-C weatherproof

connector and a 5-20P general area plug. The unit features a voltage rating of 125V and a maximum amp rating of 20 amps.

Hot Work Permit: This line cord is approved for hot work permit applications and allows operators to use their non-explosion proof equipment within an explosion proof environment. The alternative to this line cord is to convert non-explosion proof equipment to explosion proof plugs which can quickly become prohibitively expensive. Having the ability to use non-explosion proof equipment within hazardous areas when a job requires it makes this line cord able to greatly increase the versatility of non-explosion proof equipment. These industrial line cords are popularly used in hazardous locations when hot work permits have been acquired. We also offer class rated extension cords for use within explosion proof and hazardous location environments without hot work permits.

Applications: This line cord system is ideal for indoor or outdoor use and applications including but not limited to aircraft maintenance, alcohol processing, aerospace, chemical manufacturing, coke processing, cold storage, compressed natural gas (CNG) facilities, cranes, cryogenics, distilleries, food processing, fuel storage, gas processing plants, grain processing, laboratories, liquefied natural gas (LNG) facilities, liquid propane gas (LPG), manufacturing, marine vessels, methane production, mining, offshore, oil drilling rigs, oil refineries, paint spray booths, paper processing, petrochemical, pharmaceuticals, power plants, production refineries, sand blast cabinets, sewage and septic tanks, shipyards, solvent and cleaning areas, storage facilities, tank farms, tankers, textile, washdown areas, waste treatment plants, and woodworking. These industrial linecords are popularly used in hazardous locations when hot work permits have been acquired. We also offer class rated extension cords for use within explosion proof and hazardous location environments without hot work permits.

Larson Electronics is a manufacturer and as such can build extension cords and portable transformer systems to your specifications. Although we carry several models of power distribution transformers, we can deliver custom ordered units almost as quickly as our prebuilt units. If this model does not meet your needs, please contact us at 1-800-369-6671 or sales@larsonelectronics.com to discuss your specific requirements.
